PROJECT NAO

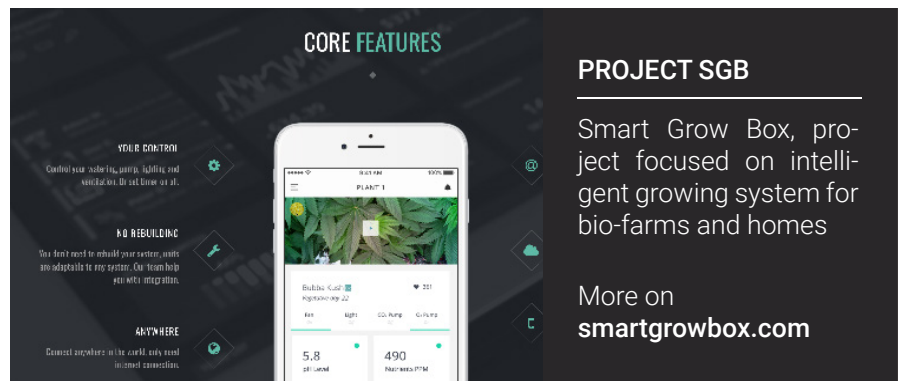

Robot NAO like a new learning tool, he helps students to learn about programming

More on
robotnao.sk

- First and biggest project I was managing was dealing with a new way of teaching programming on Slovak school with robot NAO platform. Co-operation with company named Aldebaran Robotics (SoftBank Robotics) brings 47 successful integration in many schools.

CORE FEATURES

PROJECT SGB

Smart Grow Box, project focused on intelligent growing system for bio-farms and homes

More on
smartgrowbox.com

- Denkovi AE LTD company has provided hardware that enables processing of input values. I suggested and transferred backend and frontend application that communicates with smart unit to a working condition.

PROJECT WEB-MEDIA

Web-media is small Advertising agency

More on
web-media.sk

- The main focus is offering services in web development, marketing, graphic and illustrations.
